

OOI Data Labs Workshop Implementation Plan

We've all been to professional development and get great ideas that we plan on utilizing in our courses. Even with the best intentions, these ideas often fade when we get back to our regular routines. This document is designed for you to create an implementation plan while at the Data Labs Workshop so that you don't forget your initial intentions. Take your time and be as specific as possible to help you remember your ideas of using the activities and how you plan to implement them in your classroom.

Name:

Are you willing to share your experience with other instructors when completed?

Yes No Maybe

Exploration of Data Labs Collection			
Name of course for data activity implementation:	Course number:	Modality (F2F, online, etc.):	Number of students (typically):
Which Data Lab Manual chapters, Data explorations or nuggets are you interested in using in your class?			
Scaffolding your data-rich lessons			
What were your main take-aways about structuring your lessons to support growth in data literacy <i>(Learning Cycle, scaffolding design, etc...)</i>			
Individual Planning			
Target Audience <i>(majors, non-majors, gen ed, intro students, advanced undergrad, grad students; faculty)</i>			
Student Learning Objectives <i>(What topic or content do you want students to learn and why? What data literacy skills do you want students to learn?)</i>			

<p>Implementation Summary Plan <i>(Short description of your intention to meet learning objectives while using authentic data)</i></p>	
<p>Action Plan: <i>(Make a detailed list of what you need to do to implement the activity(ies), include any pre or post lab activities that might help your students (i.e., lab 1 and 2 are skills used in later lab chapters)</i></p>	
<p>What is your timeline?</p>	<p>How long do you expect it to take for students to complete the activity?</p> <p>How long will it take for you to integrate into the course, LMS, etc...?</p> <p>When do you plan to implement the activity?</p> <p>Do you have to take an activity out in order to fit the new activity(ies) in?</p> <p>What barriers might you encounter?</p>
<p>Do you plan to share your data activity with other colleagues? If so, how and what?</p>	
<p>What resources or mentoring do you need from Data Labs Leaders?</p>
